"WEB PAGE DESIGNING"

Submitted by,

KALPESH NIMBA AHIRE (02)

Enrollment No.: 25611470401

Seat No:447038

The student of **First Year Information Technology Department**

In the academic year **2025-26**,

As a part of the **Self-Learning Assessment Work** prescribed by the

Maharashtra State Board of Technical Education (MSBTE), Mumbai.

I have guided them for the said work from time to time and found them satisfactorily progressive.

The said work has been assessed by me

And is found to meet the standards envisaged for the level of the course.

Mr. C. S. Mogare	**Mr. Parbhane sir**	**Dr. R.S. Narkhede**
Micro Project Guide	**Head of Department**	**Principal**

ACKNOWLEDGEMENTS

We take this opportunity to express our deepest sense of gratitude and sincere thanks to those who have helped us in completing this task.

We express our sincere thanks to our Project Guide **Mr. C. S. Mogare,** Information Technology Department, who has given us excellent guidance, continuous Encouragement for the completion of this work. His kind assistance and constant inspiration will always help us in our future also.

We are very thankful to **Head of Department Parbhane sir** for encouraging us to undertake this project and he has taken keen interest in making the project and report absolutely flawless.

We are very thankful to **Principal. Dr. R.S. Narkhede,** for encouraging us to undertake this project and he has taken keen interest in making the project and report absolutely flawless.

VISION AND MISSION STATEMENT

Vision Statement of Department of Information Technology:

To develop competent IT engineers with enhanced knowledge, skills and professional attitudes to suit the changing scenario and to serve techno-social needs.

Mission Statement of Department of Information Technology:

M 1 : To implement teaching-learning processes for the spreading the knowledge of fundamental engineering and emerging trends .

M 2 : To adapt teaching practices to meet the needs of the IT industry and society.

M 3 : To inculcate the sense of social responsibility among learners.

MICRO PROJECT REPORT

1.0 Introduction

Web Page Design is used to develop online applications for various organizations such as organizational and educational websites, virtual learning environments, business applications in various fields such as products, sales, banking railways reservation, services etc. Web pages are categorized into two namely: static and dynamic webpage. This course introduces web page design using HTML5 and also gives emphasis on learning Cascading Style Sheets (CSS) which is a style sheet language used for describing the presentation of a document written in a markup language for formatting and styling of content.

2.0 Aim of the Micro-Project

Develop and host the static website as per industry requirement.

3.0 Course Outcomes Integrated

- CO1 - Use HTML formatting tags to present content on web page.
- CO2 - Develop web page using list and hyperlinks.
- CO3 - Develop web pages using images, colors and backgrounds.
- CO4 - Design HTML forms using table and frames.
- CO5 - Apply presentation schemes on content using CSS.
- CO6 - Publish websites on internet or intranet

4.0 Action Plan

Website Designing steps:

Designing a website from scratch can seem overwhelming, but it becomes manageable if you break it into steps. Here's a beginner-friendly guide:

1. UNDERSTAND YOUR GOALS:

Purpose: What is the website for? (e.g., portfolio, blog, e-commerce)

Audience: Who is it for? (e.g., professionals, customers, friends)

Features: What do you want to include? (e.g., contact forms, images, articles, products)

2. PLAN YOUR CONTENT:

Make a list of pages you'll need, such as:

3. CHOOSE A WEBSITE-BUILDING METHOD:

No-Code Platforms:

Use tools like Wix, Squarespace, or WordPress.com for drag-and-drop simplicity.

Low-Code Platforms:

Use WordPress.org or similar platforms with customizable templates.

Code it Yourself (for more control):

4. SELECT A DOMAIN AND HOSTING:

Domain: Your website's name (e.g., mysite.com). Purchase it from providers like **GoDaddy or Namecheap.**

Hosting: Where your site is stored online (e.g., Bluehost, HostGator, SiteGround).

5. DESIGN YOUR WEBSITE:

Choose a Theme/Template:

Platforms like WordPress or Wix offer templates you can customize.

Use Design Principles:

Consistency: Keep fonts, colors, and layouts uniform.
Navigation: Make menus easy to understand.
Visual Hierarchy: Highlight important elements (e.g., headings, buttons).

Colors and Fonts:

Use tools like Coolors.co for color schemes.
Google Fonts offers free fonts.

6. ADD FEATURES:

7. TEST AND LAUNCH:

Test your website on different devices (mobile, tablet, desktop).
Check links and forms to ensure they work.
Launch the site.

8. MAINTAIN AND UPDATE:

Update content regularly.
Monitor performance using tools like Google Analytics.

5.0 Resources Requ

Sr. No.	Details of activity	Planned Start date	Planned Finish date
1	Create Google drive folder for WPD save all Practical's and output screenshot	B1: 17/12	B1: 31/12
2	Develop web page for family tree using list and add hyperlinks for MSBTE website	B1: 31/12	B1: 07/01
3	Develop web page for FYIF Time table using images, colors backgrounds and CSS	B1: 07/01	B1: 11/02
4	Design HTML forms.	B1: 11/02	B1: 18/03
5	Create a website and host on open source	B1: 18/03	B1: 25/03

ired:

Sr. No.	Name of Resource/material	Specifications	Qty	Remarks
1	Computer system	Windows 11	1	-
2	Designing web page, Introduction of html	https://www.w3schools.com/html/html_blocks.asp	-	-
3	Block Level Tag	https://www.geeksforgeeks.org/	-	-

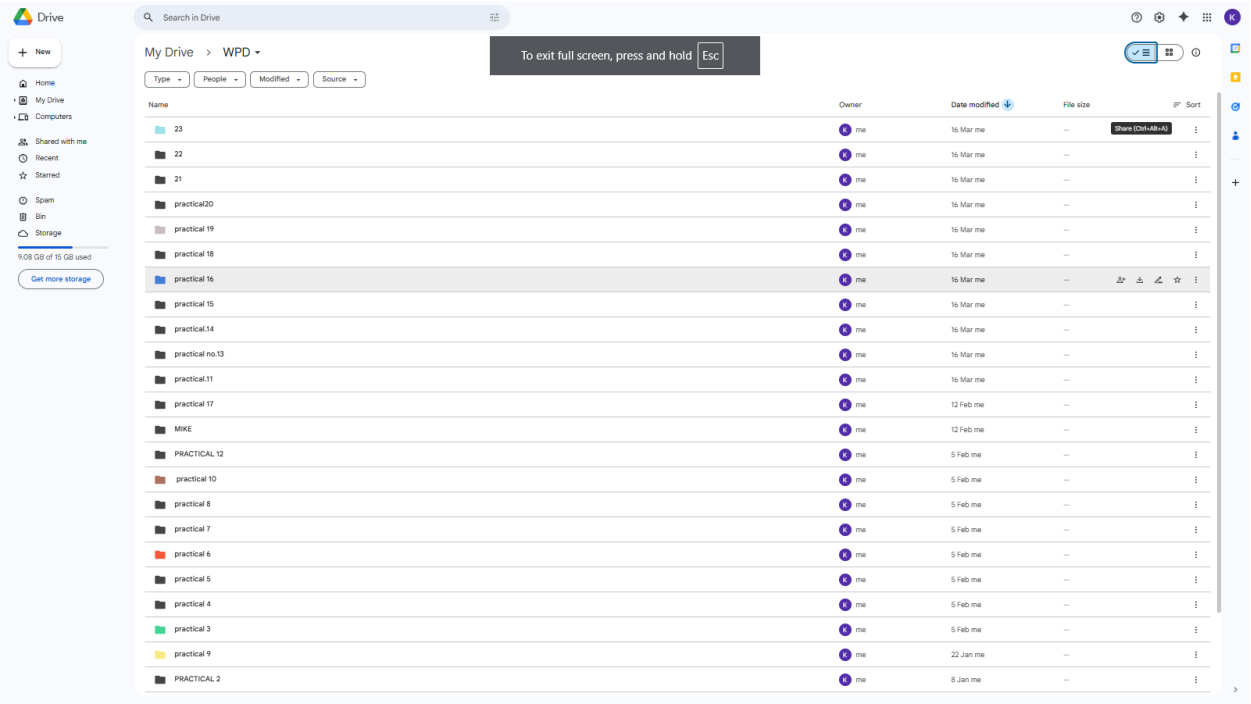
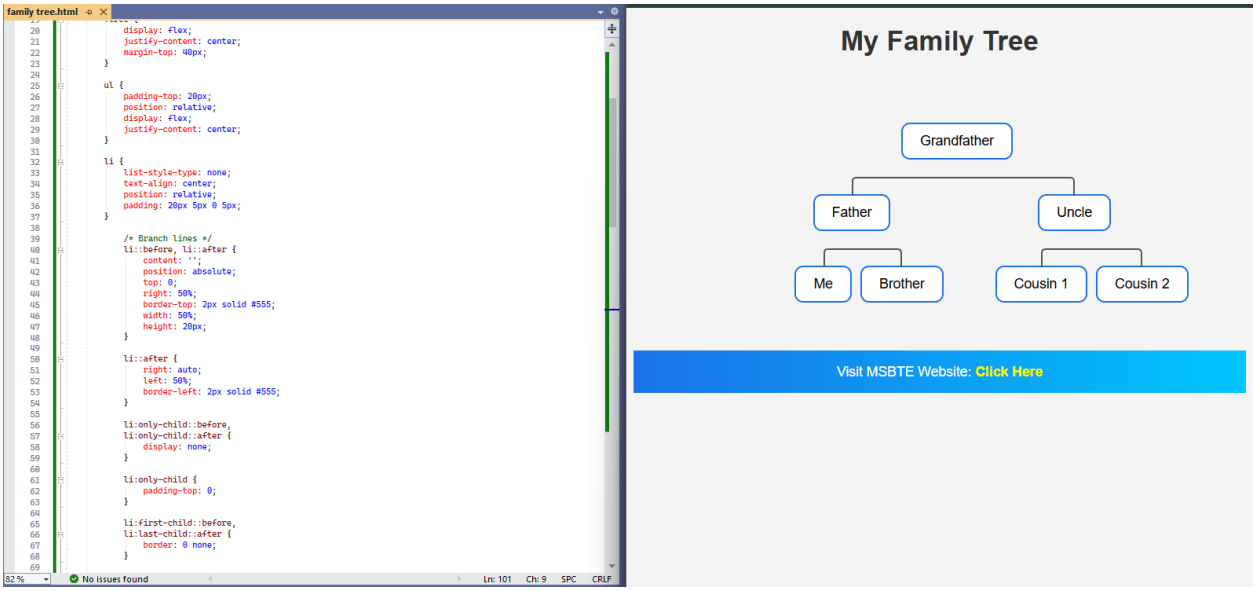
6.0 Output of Micro Project:

Task1: Create Google drive folder for WPD save all Practical's and output screenshot

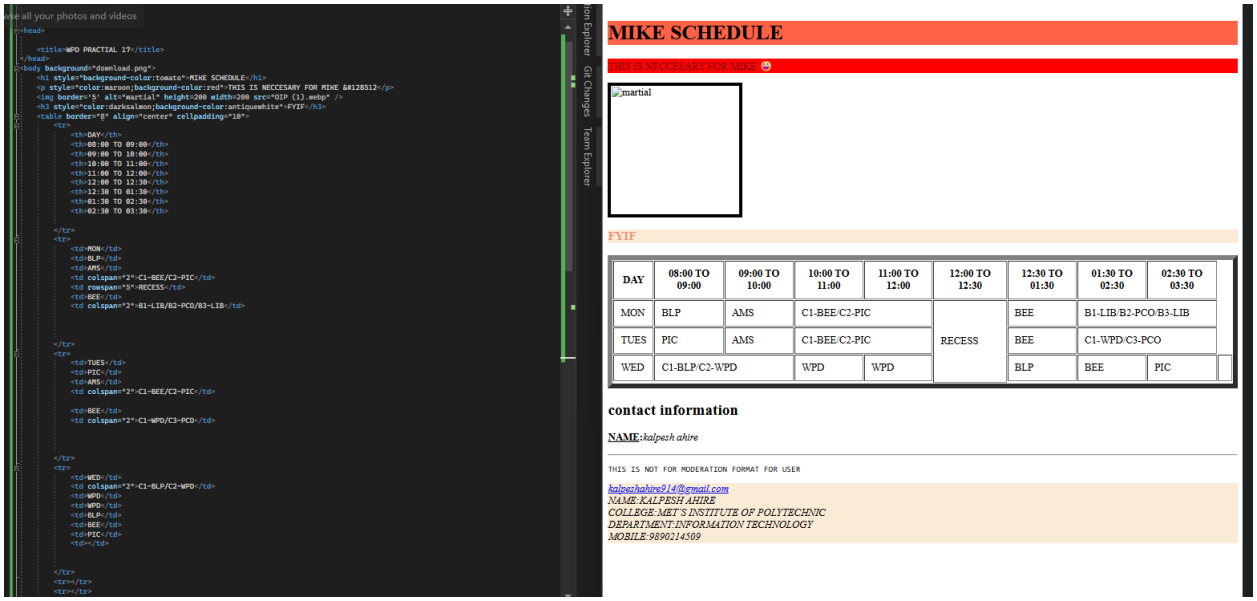


Task2: Develop web page for family tree using list, DIV tag, CSS and add hyperlinks

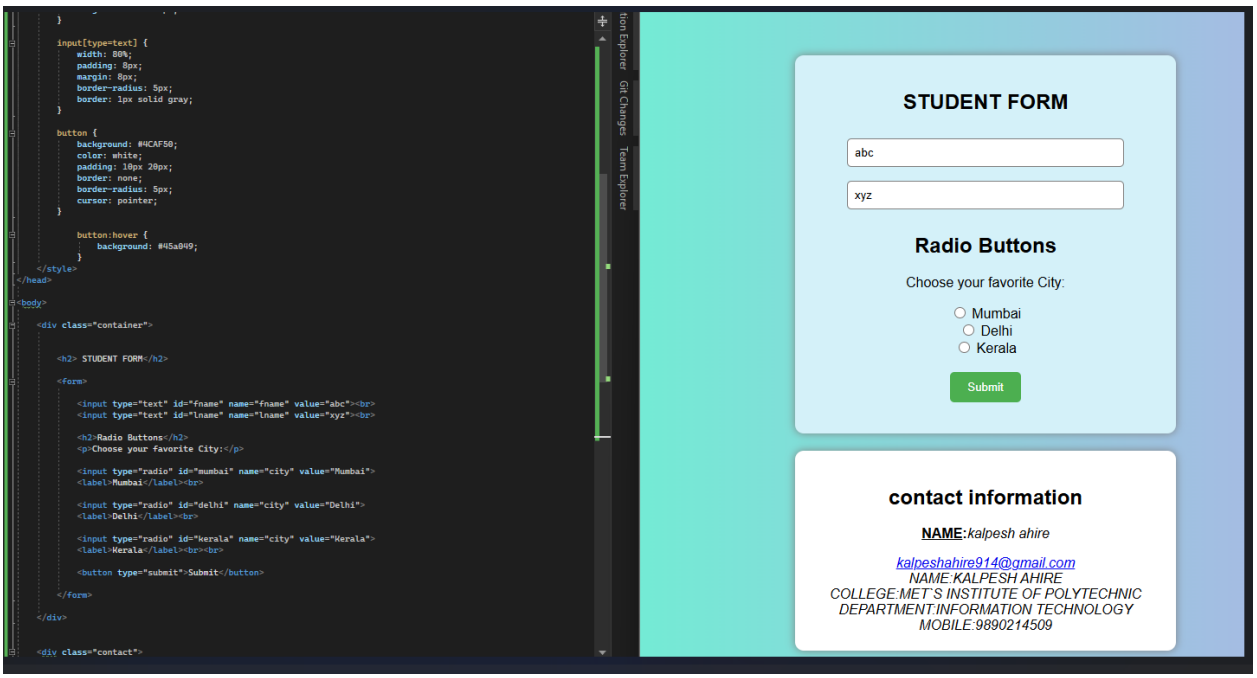
for MSBTE website.



Task3: Develop web page for FYIF Time table using images, colors backgrounds and CSS

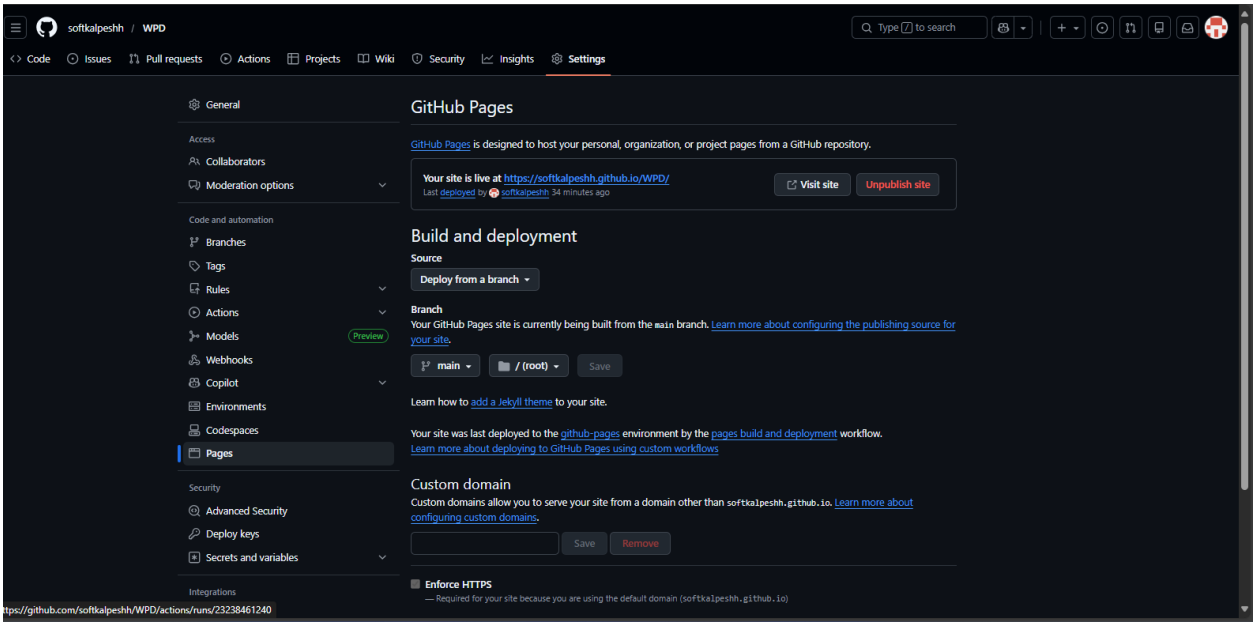


Task4: Design HTML forms.



Task5: PartA:-Create a website and host on open source

Task5: Part B:-Add print of all GITHUB web pages.



7.0 Skill Developed / learning out of this Micro-Project

- Use HTML formatting tags to present content on web page.
- Develop web page using list and hyperlinks.
- Develop web pages using images, colors and backgrounds.
- Design HTML forms using table and frames.
- Apply presentation schemes on content using CSS.
- Publish websites on internet or intranet

Teacher Evaluation Sheet

Name of Student: **KALPESH NIMBA AHIRE**
Enrollment No.: **25611470401**
Name of Department: Information Technology
Semester: Second
Course Title: Web Page designing
Code: 312004
Title of the Micro-Project: Web Page designing
Seat No.:447038

Course Outcomes Achieved:

- Use HTML formatting tags to present content on web page.
- Develop web page using list and hyperlinks.
- Develop web pages using images, colors and backgrounds.
- Design HTML forms using table and frames.
- Publish websites on internet or intranet

Micro-Project Evaluation Sheet

Roll No	Enrollment No	Exam Seat Number	Name of the Student	SLA Activities					SLA Marks according to L-A Scheme (Max Marks 25)
				Micro project/ Assignments/ Other Activities for specific learning (out of 05)					
1	2	3	4	Task1	Task2	Task3	Task4	Task5	7
9	25611470401	447038	Kalpesh Nimba Ahire
